PROFILE

Aspiring Front-End Developer with hands-on experience designing and developing responsive interfaces using JavaScript, HTML, CSS and Figma. Demonstrated ability to work in structured team environments through the EduGate collaboration project using Git and modern workflows. Highly motivated to solve problems, learn new technologies and deliver clean, efficient solutions.

EMPLOYMENT HISTORY

Assistant Team leader, NorSun AS

Årdal

Jan 2022 — Feb 2023

Supported daily production operations, coordinated tasks within the team, and ensured safety, quality, and workflow efficiency on shift.

Operator, NorSun AS

Årdal

Apr 2011 — Dec 2024

Handled daily operation of production machinery, monitored workflow and equipment performance, performed basic troubleshooting, and ensured all products met strict quality and safety requirements.

Followed established procedures and contributed to maintaining an efficient and reliable production environment.

Automation Technician Apprentice, Hydro Aluminium

Årdal

Sept 2008 — Mar 2011

Gained hands-on experience with installation, calibration and maintenance of industrial automation equipment. Worked with PLC-controlled systems, sensors, actuators and instrumentation used in large-scale production. Performed troubleshooting of electrical and control systems, assisted in preventive maintenance routines, and ensured compliance with strict safety and operational standards. Supported engineers and technicians in improving system reliability and reducing downtime across the plant.

EDUCATION

Vocational Education – Automation
Technician, Årdal VGS

Årdal

Aug 2005 — Jun 2008

Higher Vocational Diploma in Front-End
Development (In progress), Noroff School of
Technology and Digital Media

Jan 2025 — Jan 2027

EXTRA-CURRICULAR ACTIVITIES

web developer (freelance), Trygg 24

Årdal
